*As one more year comes to an end, we reflect on what happened in these 365 days around the sun. Globally women's reproductive rights had ups and downs but at ASAP we made some great strides forward towards achieving our vision and goal.*

*The report you are reading is just a snapshot of the energy and creativity and enthusiasm as well as hard, very hard work put in by so many ASAP members and partners and staff!*

*The **Youth Champions** in Nepal, Sri Lanka, Vietnam and then Bangladesh formalized advocacy networks and will be working together to create a strong voice of young people advocating for safe abortion as a right! Similar work is getting done in Bhutan, Indonesia, Pakistan, and the Philippines and we hope that next year will bring more consolidation of the work in these countries.*

*While our work with young people has been front and centre, we have also been working closely with **healthcare providers**. Doctors and nurses can be the frontline workers in this struggle since they are often the first and sometimes the only witness to signs of violence, sexual assault, burns, unsafe abortions. It should be a moral obligation of such witnesses to ensure that justice is obtained. We have been working with doctors, nurses as well as medical organizations that work in refugee and humanitarian crisis settings. This year we have also done some exciting work with medical students and conducted sensitization workshops in India, Thailand and Vietnam.*

*We are looking forward to another challenging and fulfilling year ahead. As we all hold our breaths to see what the new President in the USA will mean for our work, the reality is that in the villages and small cities in all our countries in Asia, be it Bangladesh, Pakistan, Iran, or Myanmar, the decision making still rests with the men-- in the family and society, in academia, in religious groups and in parliament.*

*So the struggle to **subvert the patriarchy** will carry on and we will continue to place safe abortion as an issue central to women's agency and autonomy and as an issue that cannot be spoken of in a vacuum without speaking of women's empowerment, sexuality, choices, freedoms and human rights.*

*Thank you to all our partners, members, collaborators, funders and supporters for walking this difficult road with us and giving us strength!*

***Looking forward to working together in 2017!***

# Background

Each year, almost one-third of the deaths worldwide from unsafe abortion occur in Asia. 30 percent of unsafe abortions are among women under 25 years of age and 60 percent are in women under 30, the region accounts for 45.7 percent of all unsafe abortions among women aged 15-24 that occur yearly in the developing world.

**Every year over 28 million women and girls in Asia have unwanted pregnancies and 10.8 million of them seek abortions.**

## Who Are We?

[www.asap-asia.org](http://www.asap-asia.org)

In March 2008, 37 participants from 13 countries met in Kuala Lumpur and formed the Asia Safe Abortion Partnership (ASAP), facilitated by ICMA. ASAP is the only such network in Asia and we work on south-south capacity building and providing a forum for experience sharing and interactions. Members and partners at country level are supported in their advocacy work through small grants, networking and capacity building opportunities.

**ASAP is one of the co-founders of the International Campaign for Women's Right to Safe Abortion.**

## Goal

To promote, protect and advance women's sexual and reproductive rights and health in Asia, by promoting access to comprehensive safe abortion services and by reducing unsafe abortion and its complications.

To increase the availability of evidence based and scientific information on safe abortion, including medical abortion and to facilitate its dissemination and use among members and other relevant stakeholders.

01

To increase the capacities of the network and its members to advocate and network for access to safe abortion as a human right.

02

To promote technologies and service delivery systems (to include mainstream and alternative) for safer abortion access.

03

To increase visibility of a right based approach to safe abortion at local, regional and global forums (physical as well as media spaces).

### 4th Youth Advocacy Institute – Refresher

28<sup>th</sup>-30<sup>th</sup> March 2016 Mumbai, India

This was a special Refresher Institute since we had invited some of the Youth Champions from the YAI held in Nepal by YCANN to also join in. Seventeen youth champions from the previous batch who had implemented small grants and showed remarkable progress were invited to participate. These participants were from Bangladesh, India, Lebanon, Myanmar, Nepal, Philippines, Sri Lanka. Read Report Here: [http://asap-asia.org/pdf/YAR4\\_Report\\_single-v2.pdf](http://asap-asia.org/pdf/YAR4_Report_single-v2.pdf)

#### Objectives:

- To strengthen the capacity of the Youth Champions to be peer trainers in understanding access to safe abortion as a gender and sexual and reproductive rights, as well as human rights issue.
- To consolidate the mentoring for utilization of social media by the Youth Champions for online thought leadership and advocacy.
- To support the ongoing engagement of the Youth Champions, within and outside their community to ensure implementation of the above strategies in order to advocate effectively for improved access to safe abortion services including medical abortion.

### **“Addressing Challenges & Exploring Opportunities on Safe Abortion Advocacy” Country seminar Organised by YouthCANN and ASAP**

20<sup>th</sup> May 2016, Kathmandu, Nepal

With the support from Asia Safe Abortion Partnership, Youth Champions Advocacy Network Nepal (Youth CANN) organized its first country seminar on 20<sup>th</sup> May, 2016 in Kathmandu to bolster Youth CANN mission in advancing the sexual and reproductive health and rights of women with especial focus on promoting access to safe abortion services as human right in Nepal.

This seminar aimed to build an important platform to bring together youth women activists, organizations and other diverse stakeholders, including government representatives at national level to discuss on addressing challenges and exploring opportunities within Safe Abortion Advocacy. Read Report here: <http://asap-asia.org/pdf/FINAL-REPORT-COUNTRY-SEMINAR.pdf>

### **Country Level Youth Advocacy Institute Colombo**

12<sup>th</sup>-15<sup>th</sup> August 2016, Colombo Sri Lanka

The Youth Advocacy Network Sri Lanka (YANSL) organized the Youth Advocacy Institute in Sri Lanka as a collaborative program along with Asia Safe Abortion Partnership's (ASAP) guidance, support, resources and financial assistance. YANSL and ASAP came together in organizing this training to train and sensitize youth champions who have a basic understanding about access to safe abortion as an essential component of ensuring gender equality and as a sexual and reproductive right, as well as human rights issue.

### Vietnam Safe Abortion Stakeholder Meeting

1<sup>st</sup> Sept, 2016 Hanoi, Vietnam

The objectives of this meeting were to:

- Build a network of stakeholders who care about safe abortion in Vietnam
- Introduce Vietnam Youth Advocacy Network for Abortion to this stakeholder network
- Discuss about the problems related to safe abortion access
- Find solutions for these problems.

Establish an initial mechanism to work together.

Read Report here: <http://asap-asia.org/pdf/Stakeholder-Meeting-in-Hanoi-Sep-2016.pdf>

### 5th Regional Youth Advocacy Institute

29<sup>th</sup> Aug- 1<sup>st</sup> Sept 2016, Hanoi, Vietnam

20 participants from 13 countries Bhutan, Cambodia, China, Nepal, India, Indonesia, Mongolia, Malaysia, Pakistan, Sri Lanka, Vietnam, Philippines participated in the Institute. The institute introduced the participants to concepts like Gender, Patriarchy, Human Rights, Sexual and Reproductive Rights and helped understand their linkages with safe abortion issues. Sessions also explored issues related to reproduction, contraception and safe abortion from a rights based perspective. Read Report here: <http://asap-asia.org/pdf/5th-YouthAIHReportfinal.pdf>

#### Objectives:

- To create a community of trained and sensitized Youth Champions who have an understanding of access to safe abortion as a gender and sexual reproductive and human rights issue.
- To facilitate the utilization of social media and other community level networking and communication by the youth champions through capacity building and ongoing mentoring.
- To support the ongoing engagement of the Youth Champions, within and outside their community to ensure implementation of the above strategies in order to advocate effectively for improved access to safe abortion services, including medical abortion.

### Youth Advocacy Institutes for Medical Students

2016 Mumbai India

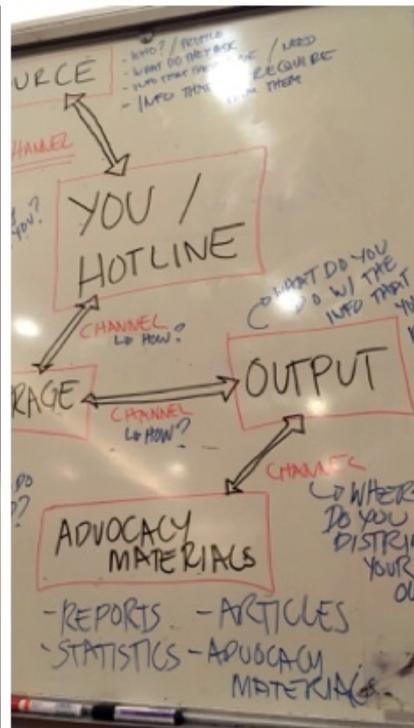

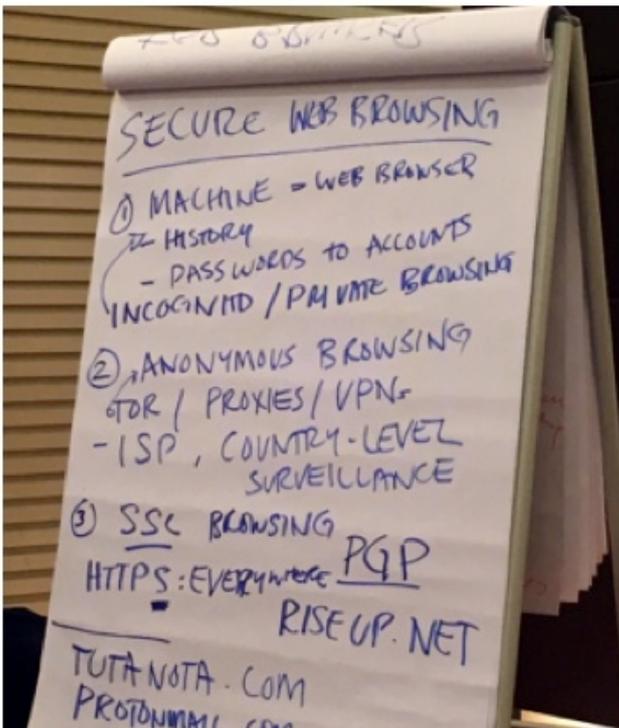

ASAP conducted two Youth Advocacy Institutes with medical students of Grant medical and other colleges in Mumbai in October and November 2016. The institutes aimed at creating a community of trained and sensitized youth champions who will be doctors and have an understanding of access to safe abortion as a gender and sexual and reproductive rights, as well as human rights issue. The sessions ranged from understanding the social construct of gender, to patriarchy and power and helped the participants think through the legitimacy that the rights-based framework & language lend to achieving gender equality. ### 'Digital security for Advocates of Safe Abortion'

8<sup>th</sup> - 10<sup>th</sup> Nov 2016 Kuala Lumpur, Malaysia

A three-day workshop was organized by ASAP from 7th - 10th Nov 2016 at Swiss Garden Residences, Kuala-Lumpur to provide hands-on training on digital security and brainstorming on issues concerning online security with respect to our work, activism and data. The workshop was organized keeping in mind the security concerns of our Youth Champions operating hotlines and giving information on safe abortion through websites and blogs in countries where access to abortion is restricted by law.

The workshop covered a range of issues addressing increasing online threats to the freedom of expression and association. Some of the key discussions focused around tracking via mobile phones, restrictions on access to content pertaining to data, computer confiscation, censorship etc. that can prevent us as activists from working safely. The response revealed that the most pressing needs are for training in secure social networking in order to protect online identities, data and privacy in online campaigning.

### Integrating Gender into Healthcare Education

23<sup>rd</sup> - 24<sup>th</sup> Nov, 2016 Hanoi Vietnam

The International Federation of Gynaecology and Obstetrics, the Asia Safe Abortion Partnership, and Global Doctors for Choice plan to collaborate to build the capacity of healthcare providers to deliver optimal sexual and reproductive health services to girls and women by strengthening or adding currently weak or absent components to medical school curricula and orienting the biomedical components modules within a gender and rights framework. Medical school provides the perfect opportunity to give future providers the skills and awareness to not only deliver optimal services to girls and women but also to become advocates for them in the medical arena and beyond. We held a meeting in Hanoi and a visit to Thai Binh Medical and Nursing Colleges.

### ASAP IFMSA meeting in Chulalongkorn University

Sat 26<sup>th</sup> Nov 2016 Bangkok, Thailand

A one-day meeting was organized by Tunchanok Chutumstid on behalf of IFMSA and ASAP to discuss prevention of unwanted pregnancy. 25 university students along with local safe abortion activists attended the meeting. Read report here: <http://asap-asia.org/pdf/ASAP-IFMSA-meeting-in-Chulalongkorn-University.pdf>

#### Abortion myths: findings of an online survey

Posted on 12 December, 2016 by Souvik Pyne

A myth is a widely held but false idea or belief. Abortion myths hurt women and often obscure important facts related to abortion. They further lead to deepening the stigma around abortion. This unscientific and deceptive misinformation greatly deters provision of and access to safe and legal abortion services.

In order to gauge the presence of some common abortion myths among netizens and their perceptions about abortion, we (ASAP) conducted a small online survey. A questionnaire with 10 abortion myth statements was created using Google forms. The survey was launched on 31st July 2016 and was closed on 3rd September 2016. The link of the survey was promoted through Asia Safe Abortion Partnership (ASAP) webpage, ASAP's social media profiles and in personal networks of few of our youth champions. It yielded 257 responses. Weighted scoring of '2', '1' and '0' was done for 'False', 'Don't know' and 'True'

# Small Grants

ASAP has supported **28 Youth Projects** through its Small Grant Programme in the last 5 years.

**Bangladesh: Anika Binte Habib** scripted, directed and produced a short film called [The Drop](#). The film is based on experiences of a woman who was forced to seek an unsafe abortion despite menstrual regulation being legal in Bangladesh. The film was screened at the 8<sup>th</sup> Asia Pacific Conference on Reproductive & Sexual Health & Rights (APCRSHR) in February 2016, at Nay Pyi Taw, Myanmar.

**India: Mubasshir Babar** conducted safe abortion advocacy workshop on 20<sup>th</sup> - 22<sup>nd</sup> May 2016 at D. Y. Patil School of Medicine, Navi Mumbai. Spread over 3 days, for a span of ten hours in total was a massive success this year at Mumbai at the 3<sup>rd</sup> National General Assembly of the Medical Students Association of India. Details see:

[https://issuu.com/msa.india/docs/scora\\_booklet\\_02](https://issuu.com/msa.india/docs/scora_booklet_02)

**Pakistan:** Naureen and Neelam organized a **Country Level Meeting on Safe Post Abortion Care** on 2<sup>nd</sup> October 2016. The meeting was held in Karachi, objectives of the meeting was to:

- Creating a forum for engagement with the issues of safe abortion
- Building awareness about the law and the impact on maternal mortality
- Expanding the range of constituencies involved in advocacy for reducing unsafe abortion

- Discussing strategies for ensuring acceptance of key messages.
- Initiating a youth led network for safe abortion advocacy in Pakistan.

**Pakistan, Tanzila Khan:** partnered with [National Forum for Women with Disabilities](#) (NFFWDs) and conducted a workshop to educate Women with Disabilities (WWDs) about safe abortion, reproductive rights and healthy sex life and to train them to become peer educators for other disabled and non-disabled women in the community. Watch Video here-

### Phillipines

**Sarah Jane:** For Sept 28th International Day for Safe Abortion Sarah Jane created a video along with other Youth Champions from Youth Advocacy Institute. The video highlights the stigma and barriers to safe abortion access in Asia and underscores the need for more positive conversations around abortion. Watch here- [Lets Talk About Abortion](#)

**Danica Magtubo** conducted focus group discussions to assess knowledge, attitude and practices related for teenage pregnancy and abortion amongst young people. The objective was to provide an evidence-based study to develop IEC and campaign materials based on the study conducted

**Dawn Macahilo** initiated discourse among selected student and youth leaders through the project titled "Youth+ Discourses+ Action: A Youth Mainstreaming Workshop and Training on SRHR in the Philippines".

**Myanmar:** Yadanar developed a comic book to help reduce the harms of unsafe abortion in Myanmar <http://asap-asia.org/information/>

**Mongolia:** Youth Champion Sanchirmaa organized a full day inclusive approached training to raise awareness on abortion rights and SRHR among Mongolian women in Ulaanbaatar, Mongolia. The training covered the following topics such gender, patriarchy and its linkage to abortion issues, human rights, sexual and health reproductive rights, conceptions and contraception, safe abortion and also what does it mean to be pro-choice. As a result of the training we created supportive team, empowered 30 young women to speak and advocate further our activities.

# Campaigns

## September 28<sup>th</sup> Campaign

### #LetsTalkAbortion- ASAP Film Festival

This year in a prelude to Sept 28 we launched a month long Film Festival "Lets Talk Abortion". Abortion related films were showcased on our social media followed by engaging and lively conversations around these films.

The overall objective was to create awareness around the issue of abortion access and stigma in general and to give space to voices of youth from Asia in particular. The intention was to increase the visibility and encourage dialogue on women's bodily autonomy and rights. Watch the promotion trailer #LetsTalkAbortion

#### Conversations about Abortions from Asia

During the film festival we launched a video series titled 'Conversations about Abortions from Asia'. In these videos our Youth Champions talk about the situation of law and abortion access in their countries and share their experiences about working to challenge the stigma and barriers to safe abortion access women face. Watch Videos here: <http://asap-asia.org/youth-champions/>

#### Lets Talk About Abortion

For Sept 28<sup>th</sup> we launched a video created by ASAP youth champions. The video highlights the stigma and barriers to abortion access in Asia and underscores the need to have more positive conversations around Abortion. Watch the video here <https://youtu.be/R8i2qvGrtIU>

## Activities by Youth Champions

[YouthCANN](#) Youth Champions Advocacy Network Nepal Conducted a Flashmob along with [Bhaktapur Youth Information](#) For Universal access to comprehensive sexual and reproductive health services, including safe abortion, that respects their rights to privacy and confidentiality and are easily accessible, elimination of violence, coercion and discrimination on the basis of sexual orientation and gender identity.

Youth Champion Advocacy Network Nepal (Youth CANN) also participated in the candle light ceremony organized on the special occasion of International day of action on safe abortion [#sept28](#) , remembering all those who lost their lives due to unsafe abortion. [#solidarity](#)

## Campaigns

[YANSL](#) – Youth Advocacy Network Sri Lanka conducted an online campaign busting myths that surround abortion and also joined the [#StepIntoOurShoes](#) Campaign calling upon women and girls to voice their struggles for the reproductive justice. They invited quote emphasizing the importance of safe abortion, stats in SL, real stories related to unsafe and illegal abortion.

Dr. Souvik Pyne organized a small event at Indian Institute of Public Health, Bhubaneswar (IIPHB), Public Health Foundation of India (PHFI). It was an attempt to reiterate the public health importance and spread awareness about issues pertaining to safe abortion. The events comprised of a briefing session, public awareness drive, safe abortion related film screening and discussions, power walk and shoethon.

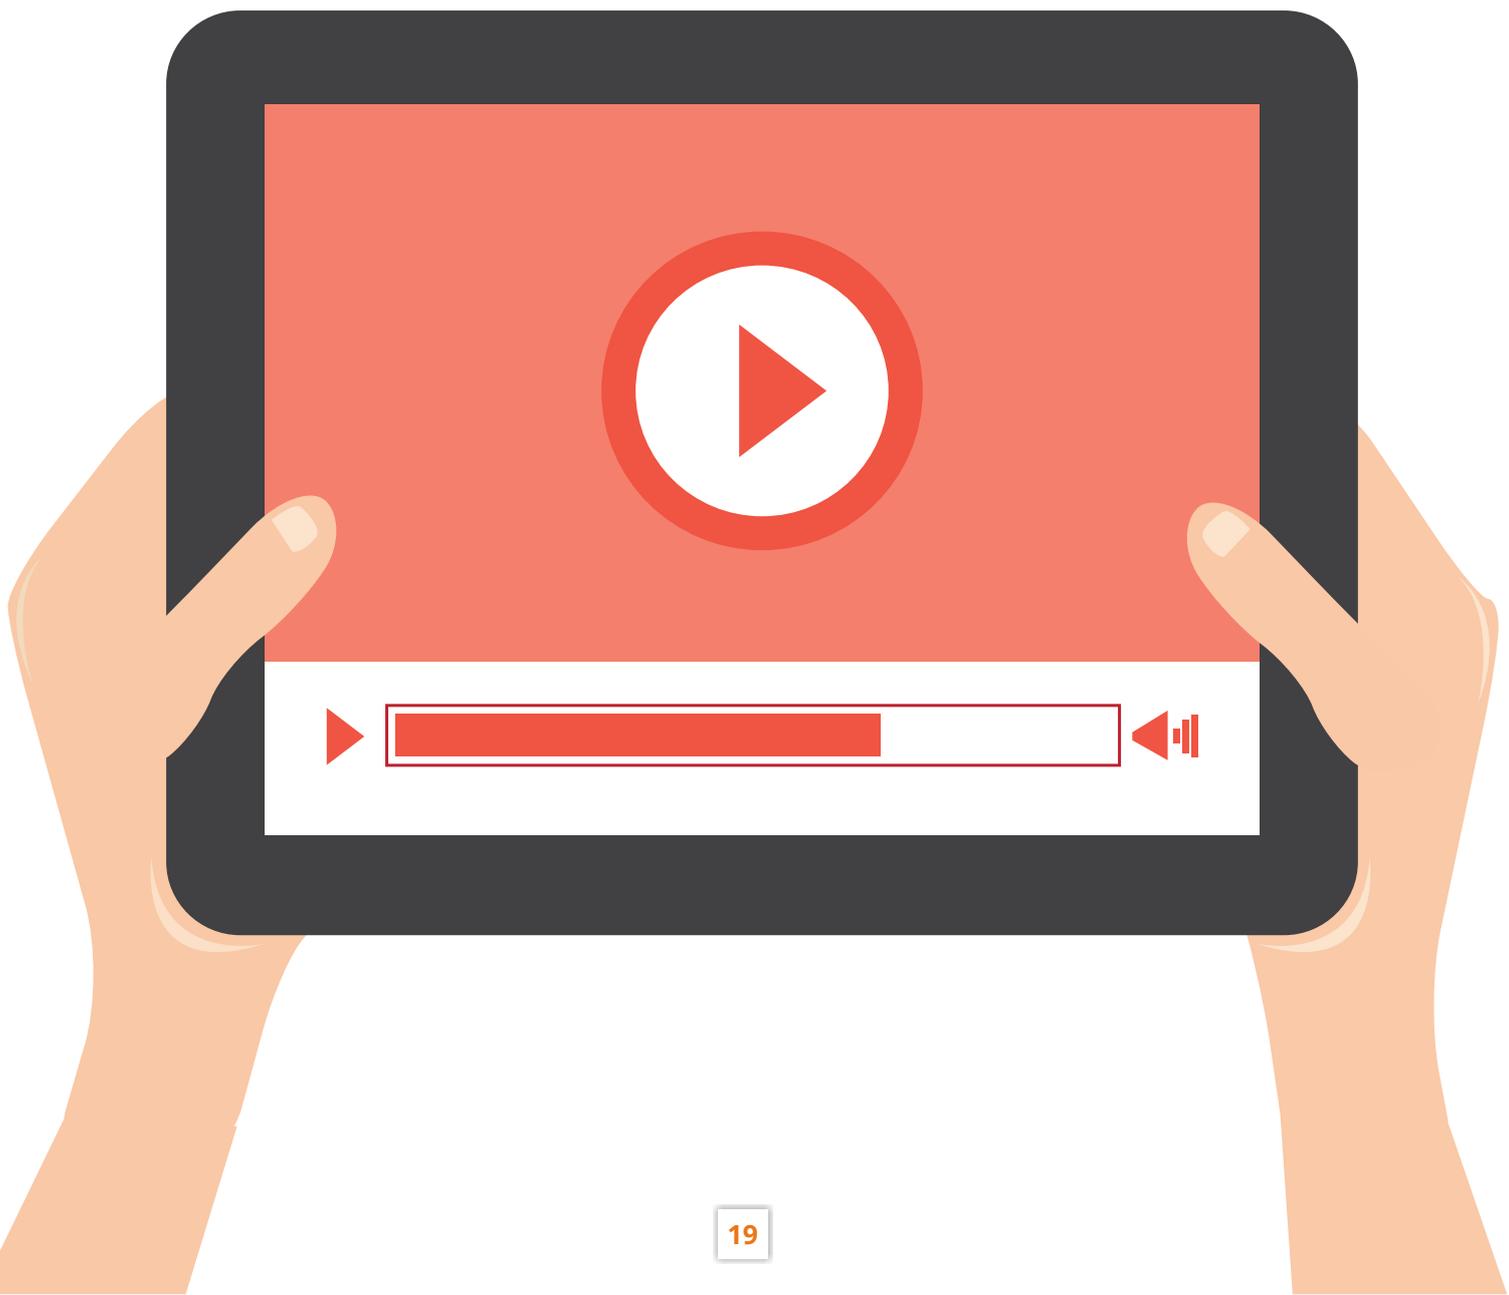

## Video Series

YANSL Be the Change- Be the Change is a series of interviews done with young men from Asia Pacific supporting the women's bodily rights. We believe that in order to achieve equality for women, men need to be part of the solution. Equality is only achievable if we work together.
