

September 28, the Global Day of Action for Access to Safe and Legal Abortion has its origin in Latin America and the Caribbean .

On this day various organization across the world come together to demand their right to safe and legal abortion. To know about our past campaigns visit- <http://asap-asia.org/september-28/>

#LetsTalkAbortion

This year in a prelude to Sept 28 we have launched a month long Film Festival "Lets Talk Abortion". We will be showcasing abortion related films on our social media and engaging in lively and exciting conversations around these films.

The overall objective is to create awareness around the issue of abortion access and stigma, as well as to increase the visibility and encourage dialogue on women's bodily autonomy and rights.
