

May 28th International Day of Action for Women's Health.

D-YISA

Online Campaign of photos

On the same day we also did online hashtag campaign with the same group of people who attended the workshop. This idea came as we realise that people are so addicted to social media and believes whatever information is presented without studying them properly. So we thought doing campaign on social media has greater implication and it can reach many individuals. Our coordinator gave us the hashtag which was #empowerwomen#bhutaneseomenshealthmatter#asapdyisa. Below are the few photos from the campaign.

Tabita Gurung is at Faculty of Nursing and Public Health.

The women who follows the crowd will usually go no further than the crowd. The women who walks alone is likely to find herself in the places no one has ever been before..

Career has no gender, Voice has no gender
So it is time that we all see #gender as a spectrum instead of two set of opposing ideal
